

Rumble Ropes Score Sheet

YOUR NAME: _____

TEAM NAME (optional): _____

PARTNER (optional): _____

Rules:

1. Write LEGIBLY. If we can't read the name of the route (or your name), you won't get the points.
2. Each competition participant must have 1 judge or 2 witnesses sign off on every route (exceptions apply to remote areas).
3. Check your math! Use that fancy smartphone calculator.
4. If you signed up as a Weekend Warrior, ONLY 5.10a and under routes will count towards your score.
5. Climb must be red pointed or pink pointed for full value. TR equals half value. If you weight the rope, you must start over.
6. Multi-pitch climbs are counted on a per pitch basis, based on each particular pitch's grade. List each pitch separately.
7. Free soloing is prohibited. Skipping good gear is plain dumb. Wear a helmet. Tie safety knots when rapping.
8. Route grades are based on those listed in Rumbling Bald Rock Climbs. For slash grades (5.11b/c), count the grade that benefits you most.
9. ONLY the top 5 scores will be counted

Choose a Category:

_____ Men _____ Women

_____ **Weekend Warrior:** ONLY routes up to 10a count (there are one or two slash grade 10a/b's out there... if you want them, count them as 10a's). A 5.10b or above will not be eligible in this category. If you are comfortable leading this grade, sign up for Rope Gun.

_____ **Rope Gun:** All route grades count

Rumble Ropes 2019 Score Chart

Scoring:

To earn full value for a pitch, it must be red-pointed or pink-pointed. TR is worth half value. Ascents must be clean (no falls). Free soloing is prohibited and skipping good gear to save time is considered plain dumb. Each pitch of a route will count towards your score, meaning multi-pitch routes are game on! Because we believe that a well rounded climber is not only strong on the rock, they also are stewards of the land they love, **bonus points** will be awarded for those who are current CCC members, are current Friends of Chimney Rock members, or signed up for the Feb 17 trail day here at Rumbling Bald. Have fun, be safe, and send that thing! In the spirit of climbing and exploration, 4 bonus points will be allocated for each new area that the competitors climb a route at. These individual areas include (from left to right): Hanging Chain, Wall of Solitude, Tail of the Cat, Hickory Nut Cracker, Flakeview, Nuclear Arms, Lakeview, Pauls Boutique, The Kennel, Doggy Day Care, Screamweaver, The Cave, Behind Test Pilots, Test Pilots, Family Wall, Comatose, Surreal (Cereal) Buttress, Cereal Wall. All climbs must be completed by 4:00.

Individual Scores, Team Scores, Prizes:

The top 2 individual scores in each category will receive prizes and acknowledgement. Team names, partners, and team scoring are all optional. CCC will acknowledge the highest scoring team but prizes will not be given.

Route Beta:

Route grades will be based on those published on the event topo. A topo booklet will be given to you at registration. These are the same grades published in Rumbling Bald Rock Climbs, but not always the same as Mountain Project or Selected Climbs.

Warning:

Any climbing route anywhere is dangerous and potentially life threatening. Climb safe and smart. We recommend that you stay on routes that are well within your abilities. Although this is a competition, this is not the place to test your abilities to handle long run outs on terrain that is above your capabilities. Know your limits and enjoy!
